

PRESSEMITTEILUNG

Solaris invites to the Busworld 2023 trade fair

Bolechowo, 07.08.2023

Solaris will display two zero-emission buses at Busworld 2023. Both the Urbino 18 electric bus equipped with a new generation of batteries and the articulated hydrogen bus represent two important areas of the manufacturer's e-mobility offering. Solaris invites to a press conference on October 6th, as well as to #SolarisTalk, a series of presentations and talks on innovative public transport.

Busworld is one of the most important events in the public transport industry, where innovations in the field of buses, the latest trends, and advanced technologies towards cleaner propulsion are showcased. This year's 26th edition will take place from October 7th to October 12th, 2023, in Brussels.

Two emission-free buses

Solaris, the European leader in e-mobility for public transport, will exhibit two zero-emission products representing fundamental areas of the company's development: battery and hydrogen bus.

Urbino 18 electric is a vehicle based on a new architecture of electric driveline, equipped with a new generation of batteries to ensure an increased range. The Urbino 18 hydrogen, on the other hand, is a hydrogen-cell powered bus having unveiled in 2022 and becoming increasingly popular with transport operators.

Press conference and #SolarisTalks

On Friday, at the press day, October 6th at 9:30 a.m., Solaris invites to the press conference, during which the company will provide an insight into its latest products and technologies, and present development plans. Additionally, the manufacturer will host #SolarisTalks, a series of presentations and talks on e-mobility. Solaris organizes #SolarisTalks for the fourth time, creating a platform for valuable conversations about the future of urban transport and sustainable solutions.

See you in Brussels in Autumn!
