

PRESS RELEASE

Solaris app already available on the App Store and the Google Play Store

Bolechowo, 17.12.2013

The Solaris Bus & Coach mobile app is now available on the App store and the Google Play Store. It is a comfortable and useful tool allowing easy access to all information about Solaris vehicles, directly from a user's mobile device.

amp; amp;

The software has been adapted to the Android and IOS systems. The content included in the Solaris Bus & Coach app is divided into six sections.

The Company section provides users with all information about the company and its history. It is linked with the company's fanpage on Facebook. The Vehicles section offers a compact overview of the complete Solaris product range. In the Sales division an operator can find the company's network of representatives around the world. It also provides information about the current offer of Solaris used buses. Thanks to the geolocation function, operators can find their nearest sales representative and have instant access to their contact numbers. The network of Solaris's authorized service stations can be found in the After Sales section. It includes all contact information as well as a route planner.

The News section with its continuous updates on the company, its product range and successes enables users to keep up to date with any developments from Solaris Bus & Coach. GPS-based location and contact details for Solaris headquarters and its three factories can be found in the Contact division.

Users of the Android system can download the application form the [Google Play Store](#). iPhone and iPad users will find it on the [Apple Store](#).

Additional information:

Solaris is a leading European manufacturer of innovative buses and urban rail vehicles. The family business, founded by Krzysztof and Solange Olszewski, has supplied almost 10,000 buses to customers in 28 countries since production started in 1996. Solaris specialises in state-of-the-art city and intercity buses and offers the world's largest range of diesel-electric hybrid buses. Trolleybuses and electric buses provide public transport that is emission-free at the point of operation. The Solaris Tramino low-floor tram is built for attractive urban rail services.

Solaris Bus & Coach sp. z o.o. is one of the leading producers of city and intercity buses in Europe. It focuses in particular on the development of zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. This has resulted in the widest zero-emission product range in the European market and a leading position in this segment with a market share of 15.2%. Nearly 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. Moreover, all activities undertaken by the manufacturer are in line with the brand's mission, which is reflected in the motto "We are changing the image of public transport". Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility.
