

PRESS RELEASE

Virtual tour of Solaris headquarters

Bolechowo, 19.02.2016

Solaris Bus & Coach has launched a virtual walk through its manufacturing plant in Bolechowo near Poznań, where innovative buses and trolleybuses are being produced. The 360° panoramic images, which are available in the Street View function of Google Maps, were taken both in offices and in production halls.

Thanks to the virtual tour Solaris, customers and suppliers are able to see what the manufacturing processes of the environmentally friendly vehicles looks like. From the comfort of any computer, one can take a walk through the plant and become familiar with many production stages – from the bodyframe to the finished bus. Moreover it is possible to look inside a few offices, including Solaris Visual Design Center where the company's customers can configure and customize products in virtual reality.

Solaris manufactures its innovative public transport vehicles in four plants located around Poznań. Bodyframes for buses and trams are being built in two welding facilities in Środa Wielkopolska. Final assembly of rail vehicles takes place in Poznań. The last production stage of Solaris buses and trolleybuses is carried out in Bolechowo, in the largest of four plants which is also the company's headquarters.

The virtual tour of Solaris's Bolechowo site is accessible through Google Maps at:

About our company

Solaris Bus & Coach sp. z o.o. is one of the leading producers of city and intercity buses in Europe. It focuses in particular on the development of zero-emission vehicles, i. e. electric and hydrogen buses as well as trolleybuses. This has resulted in the widest zero-emission product range in the European market and a leading position in this segment with a market share of 15.2%. Nearly 25,000 Solaris vehicles have been delivered so far and they ply the streets in 850 towns and cities across 33 countries located throughout Europe as well as beyond it. Solaris is part of the Spanish CAF Group (Construcciones y Auxiliar de Ferrocarriles) S.A. From conception, to the design and manufacturing phases, all Solaris buses are produced in Poland. Moreover, all activities undertaken by the manufacturer are in line with the brand's mission, which is reflected in the motto "We are changing the image of public transport". Solaris also actively partners with public transport operators and provides them with comprehensive support in their transition to zero-emission mobility.
